MOVIE NIGHT

Grab your notebook and start writing down your suggestions for movies (e.g., Jurassic Park, The Lost World: Jurassic Park, Jurassic Park III).

The process will be **The Usual One™**:

- **Phase 0**: the Oliver (i.e. the responsible of operating the apparatus) is *volunteered*.
- **Phase 1**: everyone attending the movie night is entitled to suggest movies to watch. The person suggesting the movie is also in charge of providing the movie. Each movie must have exactly one sponsor or be excluded, and every person can sponsor at most one movie.
- **Phase 2**: everyone attending the movie night will vote for the movies from **Phase 1**: each person can cast up to one positive vote and one anti-vote per movie (so one person can vote for many movies). One positive vote counts +2 and one anti-vote counts −1.
- **Phase 2.1**: the probability of each movie is set according to the number of votes it has received.
- **Phase 3**: the Oliver of the night will ***"spin the wheel"***.
- **Phase 4**: everyone will accept the outcome of the wheel.
- **Phase 5**: we will discuss whether we should accept step 4 or whether a coup is in order.
- **Phase 6**: we will eat something and we will feel compelled to comment the food.
- **Phase 7**: everyone will accept that the movie is trash, but we should watch it anyway.
- **Phase 7**: we will start watching the movie.
- **Phase 8**: someone will fall asleep.
- **Phase 9**: the movie will be over.

Feel free to forward the invitation to anyone

The best Andrea ♥
